Re: MB Docket No. 04-233

Dear Ms. Dortch:

The Crohn's and Colitis Foundation of America is a non-profit, volunteer-driven organization dedicated to finding the cure for Crohn's disease and ulcerative colitis. Our mission is to cure Crohn's disease and ulcerative colitis, and to improve the quality of life of children and adults affected by these diseases.

Q102 has been a great to our organization on a local level by helping us promote awareness of our diseases in the community. Awareness is especially important to our organization, as Crohn's and ulcerative colitis are topics that people do not like to discuss, but need to discuss. The staff at Q102 has helped us with promotion of awareness and is always open to letting us come in and tell listeners about our local events. We have already promoted on of our events, and will be going this week to inform the community of our largest event coming up in May. We greatly appreciate Q102 for talking about our mission and informing the community about Crohn's and ulcerative colitis even though the diseases are not easy to talk about.

In conclusion, Bonneville International-Cincinnati (WKRQ, WUBE, WYGY, WSWD) has been effective is serving my organization's needs as well as those of the community at-large. We see no need for additional rules or reporting requirements that insert federal oversight of the process of broadcasters serving the community

Respectfully submitted,

Jenny L. Southers
Development Director
Crohn's & Colitis Foundation of America
